DETAILED ACTION

Status of the claims: Claim 9 was amended. Claims 9-24 are pending. Claims 21-24 read on non-elected subject matter.

IDS: The IDS filed on 10/16/2007 was considered.

Priority: This application is a 371 of PCT/JP03/13901 (10/30/2003) and claims foreign priority of JAPAN 2002-320153 (11/01/2002).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

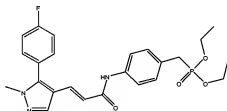

2. Claims 9-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The added proviso in claim 9 to avoid the prior art cited in the previous office action is not supported and constitutes new matter. Specifically, the following amendment is not supported:

X is methylene, Z is -S- and Y is a bond, then the ring represented by D should not be oxadiazole, and
provided that

5-(di)fluoromethyl-3-{4-[3-(1-ethyl-1H-pyrazol-3-yl)propoxy]-3,5-dimethylphenyl}-1,2,4-oxadiazole, and N-[3-(5-(4-amino-2-[(3,4,5-trimethoxyphenyl)amino]-1,3-thiazol-5-yl)-1,2,4-oxadiazol-3-yl)-4-methylphenyl]-2-(1-methyl-1H-imidazol-4-yl)acetamide are excluded,

Election/Restrictions

As detailed in the prior office action, the examiner has considered the elected

species of CC1=CN(C2=CC=CC=C2C(=C1)/C=C/C(=O)Nc3ccc(cc3)COP(=O)(OCC)OCC)C and anticipatory prior art was found when the examiner's search was broadened to within the scope of the generic claim 9 (see the following 102 rejection). Therefore, in accordance with the election of species requirement in the requirement for restriction/election, the claims are restricted to the elected species and all other subject matter is withdrawn from consideration.

Claim Rejections - 35 USC § 102

3. The rejection of claims 9, 10, 12, 14, 16-18, and 20 under 35 U.S.C. 102(b) as being anticipated by US 5,552,420 is maintained in view of the new matter impropriety of the claim amendment to avoid this rejection.

The claims recite a genus of compounds with the formula:

The '420 patent teaches compounds including the compound of example 18F (col. 29-

30):

. This compound corresponds to the instant claims as A=pyrazole, B=ethyl, X=propyl, Z=-O-, Y=bond, D=substituted phenyl, Y1=bond, R3=substituted oxadiazole, which falls into the genus of the generic claim 9 and anticipates it and dependent claims.

Claim Objections

Since the claims have been restricted to the elected species, claims 9-20 are objected to as reading on non-elected subject matter.

Conclusion

Claims 9-20 are rejected.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
